

Attitudes to Immigration Poll

04/10/2013

Prepared on behalf of Sky News

Attitudes to Immigration Poll

On behalf of Sky News
04/10/13 - 1,508 respondents

Fieldwork Dates

27th - 29th September 2013

Data Collection Method

The survey was conducted via online panel. Invitations to complete surveys were sent out to a random sample of members of the panel.

Population Sampled

All adults aged 18+ in England, Scotland and Wales.

Sample Size

1,508

Data Weighting

Data were weighted to the profile of all adults aged 18+. Data were weighted by sex, age, region, household income and vote in the 2010 general election. Targets for the weighted data were derived from Office of National Statistics 2011 Census data.

Margin of Error

Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where 50% (the worst case scenario as far as margin of error is concerned) gave a particular answer, with an effective sample of 1,508 it is 95% certain that the 'true' value will fall within the range of 2.5% from the sample result. Sub-samples from the cross-breaks will be subject to higher margin of error, conclusions drawn from cross-breaks with very small sub-samples should be treated with caution.

Attitudes to Immigration Poll

04/10/13 - 1,508 respondents

Question presentation

All data tables shown in full below, in order and wording put to respondents. In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order. The only questions which would not have had randomising responses would be those in which there was a natural order to maintain – e.g. a scale from “strongly agree” to “strongly disagree”, a list of numbers from 0 to 10 or questions which had factual rather than opinion-related answers such as demographic information. “Other”, “Don't know” and “Refused” responses are not randomised.

Data were analysed and weighted by Survation and presented by Patrick Briône and Damian Lyons Lowe.

Attitudes to Immigration Poll

Prepared on behalf of Sky News

Q25_G. For each of the following types of immigrants, please indicate whether you believe they should be given priority over most other immigrant types in deciding who gets to come to work and reside in the UK, should be treated the same as other immigrant types, should be given less priority than most other immigrant types, or should not be allowed to move to the UK at all.

Unskilled manual or service workers wanting to work in the UK (eg fruit pickers, shop staff)

Attitudes to Immigration Poll

Prepared on behalf of Sky News

Q28. A further policy, proposed by the government, is to require visa travellers from “high risk” countries to hand over a security deposit / bond of £1,000 - £3,000 (suggestions vary), to be returned when they leave the UK. Do you ?
