Topical Poll

30/11/2017

Prepared on behalf of The Daily Record

Survation.

Methodology

Data Weighting

Data were weighted to the profile of all adults aged 16+ living in Scotland. Data were weighted by age, sex, region, 2017 general election vote and 2014 independence referendum vote. Targets for the weighted data were derived from Office for National Statistics 2011 Census data, and the results of the 2017 General Election and 2014 Independence Referendum.

Margin of Error

Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where 50% (the worst case scenario as far as margin of error is concerned) gave a particular answer, with a sample of 1,017 it is 95% certain that the 'true' value will fall within the range of 3.1% from the sample result. Subsamples from the cross-breaks will be subject to higher margin of error, conclusions drawn from cross breaks with very small sub-samples should be treated with caution.

Voting Intention

In order to assess voting intention, we first asked respondents how likely they would be to vote in the next election on a scale of 0–10. This likelihood to vote for was then used to weight voters' responses, such that respondents replying "10" were weighted by a factor of 1.0, whilst those responding "9" were weighted by a factor of 0.9, and so on down to responses of "0" being excluded altogether.

Respondents were then asked who they would be most likely to vote for if that election were tomorrow, with the responses "Labour", "Conservative", "Liberal Democrat" and "SNP" prompted in a randomising order, and other parties displayed if respondents selected "Another Party". When asked who they would be most likely to vote for with their regional list vote, the responses "Scottish Green Party" and "UKIP" were also prompted in a randomising order. These responses were not prompted for other questions about voting intention. As an additional weighting step, respondents who replied "undecided" and "refused" were then removed from the sample.

Survation.

Question presentation

All data tables shown in full below, in order and wording put to respondents, including but not limited to all tables relating to published data and all relevant tables preceding them. Tables for demographic questions might not be included but these should be clear from the cross-breaks on published tables. In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order. The only questions which would not have had randomising responses would be those in which there was a natural order to maintain – e.g. a scale from "strongly agree" to "strongly disagree", a list of numbers from 0 to 10 or questions which had factual rather than opinion-related answers such as demographic information. "Other", "Don't know" and "Refused" responses are not randomised.

Not all questions will have necessarily been asked to all respondents – this is because they may be follow-on questions from previous questions or only appropriate to certain demographic groups. Lower response counts should make clear where this has occurred.

Data were analysed and weighted by Survation.

Survation Ltd Registered in England & Wales Number 07143509

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that they lie within 2 points.

Topical Poll

Prepared on behalf of Daily Record

1 Dec 2017

Table 34
Q23. By Normal Weighting
Q23. The Scottish Government has indicated it is considering various approaches regarding raising income tax to address future shortfalls in Scotland's budget.
The proposals under consultation include the introduction of new income tax bands. Those earning £31,000 or less would not pay any more tax than they do currently,
however those earning more than £31,000 would start to pay higher levels of taxation, with the amount of extra tax paid increasing depending on a person's total earnings.

Topical Poll
Prepared on behalf of Daily Record

1 Dec 2017

Table 38
Q27. By Normal Weighting
Q27. Kezia Dugdale, former leader of Scottish Labour and member of Scottish Parliament (MSP) is taking three weeks away from the Scottish Parliament to appear on the TV show
'I'm a Celebrity... Get Me Out of Here '.
Some people have said that it is not appropriate for an MSP to take time off to appear on TV,
because they should be representing their constituents and fulfilling their duties in the Scottish Parliament.
Kezia Dugdale has said her appearance on the show will help engage people in politics and raise awareness for the charity she is supporting.
She has also said she will donate part of her appearance fee and her MSP salary for the period to the charity.
Which of the following statements is closest to your view?
Base : All Respondents
