

TTIP Marginals

Poll

31/07/2014

Prepared on behalf of UNITE the Union

Methodology

Fieldwork Dates

21st to 30th July 2014

Data Collection Method

The survey was conducted via telephone. A combination of random numbers seeded from the complete BT directory of households in the local wards and, in addition, a smaller amount of targeted lifestyle data for specific age brackets were called.

Population Sampled

All residents aged 18+ in the constituencies of Amber Valley, Truro & Falmouth, Warwickshire North, Broxtowe, Lancaster & Fleetwood, Brighton Kemptown, Camborne & Redruth, Lincoln, Morecambe & Lunesdale, Sherwood, Thurrock, Cannock Chase, and West Dorset

Sample Size

2,644

Data Weighting

Data were weighted to the profile of all adults aged 18+ across the 13 constituencies. Data were weighted by age and sex. Targets for the weighted data were derived from Office of National Statistics 2011 Census data. All 13 constituencies were given equal weight in the final weighted figures.

Margin of Error

Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where 50% (the worst case scenario as far as margin of error is concerned) gave a particular answer, with a sample of 2,644 it is 95% certain that the 'true' value will fall within the range of 1.9% from the sample result. Subsamples from the cross-breaks will be subject to higher margin of error, conclusions drawn from crossbreaks with very small sub-samples should be treated with caution. For example, for each individual constituency of 200 responses the margin of error would be 6.9%.

Voting Intention

In order to assess voting intention, we first asked respondents how likely they would be to vote in the next election on a scale of 0-10. This likelihood to vote for was then used to weight voters' responses, such that respondents replying "10" were weighted by a factor of 1.0, whilst those responding "9" were weighted by a factor of 0.9, and so on down to responses of "0" being excluded altogether.

Respondents were then asked who they would be most likely to vote for if that election were tomorrow, with the responses "Labour", "Conservative", "Liberal Democrat" and "UKIP" prompted in a randomising order, and other parties displayed if respondents selected "Another Party".

As an additional weighting step, respondents who replied "undecided" and "refused" were then removed from the sample. Undecided respondents were then re-inserted into the sample based on a factor of which party they voted for in the 2010 general election. Final published voting intention can therefore be found in the final table of each section.

Question presentation

All data tables shown in full below, in order and wording put to respondents, including but not limited to all tables relating to published data and all relevant tables preceding them. Tables for demographic questions might not be included but these should be clear from the cross-breaks on published tables. In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order. The only questions which would not have had randomising responses would be those in which there was a natural order to maintain – e.g. a scale from “strongly agree” to “strongly disagree”, a list of numbers from 0 to 10 or questions which had factual rather than opinion-related answers such as demographic information. “Other”, “Don't know” and “Refused” responses are not randomised.

Not all questions will have necessarily been asked to all respondents – this is because they may be follow-on questions from previous questions or only appropriate to certain demographic groups. Lower response counts should make clear where this has occurred.

Data were analysed and weighted by Survation and presented by Patrick Briône and Damian Lyons Lowe.

TTIP Marginals Poll
Prepared by Survation on behalf of Unite the Union

31 Jul 2014

Table 20

Representatives from the European Union and the US government are presently negotiating a new trade agreement called TTIP (Trans-Atlantic Trade and Investment Partnership), aimed at making it easier to trade between Europe and the USA, which they estimate could bring an extra £4 billion a year to the UK economy. One of the areas this new agreement could affect will be the NHS and health sector in the UK. If the NHS is included as part of this trade agreement, US private healthcare companies would be guaranteed the right to bid to run privatised NHS services. If a future UK government tried to stop the practice of allowing private companies to run these NHS services, US healthcare firms would then be able to sue the UK government for lost business opportunities.

Q6. Would you support or oppose the inclusion of the NHS as part of this trade agreement?

Base : All Respondents

31 Jul 2014

Table 21
The trade agreement is currently being negotiated by EU officials on behalf of the UK government; however the EU has made clear that David Cameron can decide to exclude the NHS from being part of this trade agreement if he wants.

Q7. Do you think David Cameron should, or should not, seek to exclude the NHS from this trade agreement?

23	15	Q3. If there was a UK General Election taking place tomorrow, how likely do you think you would be to vote on a scale of 0 to 10?	Base : All Respondents	2644
24	16	Q4. Voting Intention Tables - Normal Weighted Table Q4. If there was a General Election taking place tomorrow, and there was a candidate from all political parties standing in your constituency, which party do you think you would vote for? / Another Party (Net)	Base : Respondents would vote in General Election	2191
25	17	Q4. Voting Intention Table - Normal Weighted Table and Likelihood Weighting Q4. If there was a General Election taking place tomorrow, and there was a candidate from all political parties standing in your constituency, which party do you think you would vote for? / Another Party (Net)	Base : Respondents would vote in General Election	2191
26	18	Q4. Voting Intention Table - Normal Weighted Table and Likelihood Weighting Q4. If there was a General Election taking place tomorrow, and there was a candidate from all political parties standing in your constituency, which party do you think you would vote for? / Another Party (Net)	Base : Respondents would vote in General Election and Excluding DK/Refused	1274
27	19	Q5. Thinking back to the General Election in May 2010, can you recall which party you voted for in that election?	Base : All Respondents	2644
28	20	Representatives from the European Union and the US government are presently negotiating a new trade agreement called TTIP (Trans-Atlantic Trade and Investment Partnership), aimed at making it easier to trade between Europe and the USA, which they estimate could bring an extra £4 billion a year to the UK economy. One of the areas this new agreement could affect will be the NHS and health sector in the UK. If the NHS is included as part of this trade agreement, US private healthcare companies would be guaranteed the right to bid to run privatised NHS services. If a future UK government tried to stop the practice of allowing private companies to run these NHS services, US healthcare firms would then be able to sue the UK government for lost business opportunities. Q6. Would you support or oppose the inclusion of the NHS as part of this trade agreement?	Base : All Respondents	2644
29	21	The trade agreement is currently being negotiated by EU officials on behalf of the UK government; however the EU has made clear that David Cameron can decide to exclude the NHS from being part of this trade agreement if he wants. Q7. Do you think David Cameron should, or should not, seek to exclude the NHS from this trade agreement?	Base : All Respondents	2644
