Q22. By Normal Weighting

Q22. The EU is an organisation with assets and liabilities. The EU has been clear that when the UK leaves, it is expected to pay off its share of the liabilities: this is referred to as the Brexit 'divorce bill' or exit bill. Recent estimates put the net bill at 55-75 billion euros. Which of the following is closest to your view.

Q32. By Normal Weighting

Q32. The stated government position on Britain's exit from the EU has been that by March 2019 the UK will leave the single market and the customs union. In her speech on Friday in Florence, Italy, the Prime Minister stated that for an additional 2 years after March 2019 the UK will continue to pay into the EU budget, and be bound by EU rules including free movement of goods, capital, services and labour.

This period of "transition" would mean there would be no change to the current situation until March 2021, after which time the Prime Minister stated a new agreement would be reached with the EU. Do you support or oppose the Prime Minister's 2021 transition proposal?

Q39. By Normal Weighting

Q39. The EU is an organisation with assets and liabilities. The EU has been clear that when the UK leaves, it is expected to pay off its share of the liabilities: this is referred to as the Brexit 'divorce bill' or exit bill. Recent estimates put the net bill at 55–75 billion euros. Which of the following is closest to your view?

Q40. By Normal Weighting

Q40. The Chancellor of the Exchequer, Phil Hammond has repeatedly warned against a “cliff-edge” Brexit and said that the UK must have as “frictionless” free trade deal with the EU as possible.

The Foreign Secretary Boris Johnson has previously said Brussels can “go whistle” over its demands for a huge divorce bill and warned against continued payments for access to the Single Market.

From what you may have seen or heard about recent developments regarding the UK’s Brexit negotiations, which of the 2 cabinet ministers

would you say had “won the argument” over the government’s Brexit policy?
