

Topical Poll

09/03/2018

Prepared on behalf of the GMB

Topical Poll

Survation.

Methodology

Fieldwork Dates

7th – 8th March 2018

Data Collection Method

The survey was conducted via online panel. Invitations to complete surveys were sent out to members of the panel. Differential response rates from different demographic groups were taken into account.

Population Sampled

All residents aged 18+ in the United Kingdom

Sample Size

1,038

Data Weighting

Data were weighted to the profile of all UK adults aged 18+. Data were weighted by age, sex, region, household income, education, 2017 General Election vote and 2016 EU Referendum vote. Targets for the weighted data were derived from Office for National Statistics 2011 Census data, and the results of the 2017 General Election and 2016 EU Referendum.

Margin of Error

Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where 50% (the worst case scenario as far as margin of error is concerned) gave a particular answer, with a sample of 1,038 it is 95% certain that the 'true' value will fall within the range of 3.0% from the sample result. Subsamples from the cross-breaks will be subject to higher margin of error, conclusions drawn from cross breaks with very small sub-samples should be treated with caution.

Voting Intention

In order to assess voting intention, we first asked respondents how likely they would be to vote in the next election on a scale of 0-10. This likelihood to vote for was then used to weight voters' responses, such that respondents replying "10" were weighted by a factor of 1.0, whilst those responding "9" were weighted by a factor of 0.9, and so on down to responses of "0" being excluded altogether.

Respondents were then asked who they would be most likely to vote for if that election were tomorrow, with the responses "Labour", "Conservative" and "Liberal Democrat" prompted in a randomising order, and other parties displayed if respondents selected "Another Party". For respondents in Scotland and Wales, "SNP" and "Plaid Cymru" respectively were included in the main prompt. Respondents in Northern Ireland were asked the same question, with "DUP", "Sinn Fein", "UUP", "SDLP" and "Alliance Party" and prompted in a randomising order.

As an additional weighting step, respondents who replied "undecided" and "refused" were then removed from the sample. Undecided respondents were then re-inserted into the sample based on a factor of which party they voted for in the 2015 General Election. Final published voting intention can therefore be found in the final table of each question.

Question presentation

All data tables shown in full below, in order and wording put to respondents, including but not limited to all tables relating to published data and all relevant tables preceding them. Tables for demographic questions might not be included but these should be clear from the cross-breaks on published tables. In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order. The only questions which would not have had randomising responses would be those in which there was a natural order to maintain – e.g. a scale from “strongly agree” to “strongly disagree”, a list of numbers from 0 to 10 or questions which had factual rather than opinion-related answers such as demographic information. “Other”, “Don't know” and “Refused” responses are not randomised.

Not all questions will have necessarily been asked to all respondents – this is because they may be follow-on questions from previous questions or only appropriate to certain demographic groups. Lower response counts should make clear where this has occurred.

Data were analysed and weighted by Survation.

	Page	Table	Title	Base Description	Base
	4	1	Q1. If there were to be another general election, on a scale of 0-10, where 10 is certain and 0 is would not vote, how likely would you be to vote?	Base: All Respondents	1038
	5	2	Q2. If the General Election was taking place tomorrow, and there was a candidate from all political parties standing in your constituency, which party do you think you would vote for?	Base: Respondents Likely to vote	976
	6	3	Q2. Voting Intention Table - By Normal Weighting and LTV Q2. If the General Election was taking place tomorrow, and there was a candidate from all political parties standing in your constituency, which party do you think you would vote for?	Base: Respondents Likely to vote	976
	7	4	Q2. Voting Intention Table - By Normal Weighting and LTV with undecided and refused removed Q2. If the General Election was taking place tomorrow, and there was a candidate from all political parties standing in your constituency, which party do you think you would vote for?	Base: Respondents Likely to vote with undecided and refused removed	828
	8	5	Q3. In 2007/8, there was a financial crisis, known as the 'Global Financial Crisis', which began as a crisis in the mortgage market in the USA, but became an international banking crisis due to excessive risk-taking by global investment banks including the banks operating in the UK. Which of the following is closest to your view?	Base: All Respondents	1038
	9	6	Q4. There have been cuts to public spending and services in the UK since 2010. Do you think that the level of public spending cuts has gone...?	Base: All Respondents	1038
	10	7	Q5. Which of the following is closest to your view? Do you think that the level of public spending cuts has gone...?	Base: All Respondents	1038
	11	8	Q6. Considering public services that have been outsourced to the private sector, which of the following is is closest to your view?	Base: All Respondents	1038
	12	9	Q7. Thinking about your own finances and the 12 months ahead, to what extent do you feel optimistic or pessimistic about your personal finances?	Base: All Respondents	1038
	13	10	Q8. A recession is defined as a period where the size of the economy (GDP) contracts for two consecutive quarters (6 months). Thinking about what you may have seen or heard, how likely do you think it is that the UK economy will experience a recession in the next two years?	Base: All Respondents	1038

	Page	Table	Title	Base Description	Base
	14	11	Q9. The government is about to begin the process of contracting the purchase of three new support ships for the Royal Navy. The government has the power to choose between an international bidding process, which would enable a company from outside the UK to produce these vessels or or can award the contract to a bidder solely from the UK due to Royal Navy ship building having sensitive security considerations. Which of the following is closest to your view?	Base: All Respondents	1038
	15	12	Q10. Thinking about contracts for the UK's armed forces in general, which of the following statements is closest to your view?	Base: All Respondents	1038
	16	13	Q11. When the UK Government's negotiations over the terms of Britain's exit from the EU are complete, would you support or oppose holding a referendum asking the public if they will accept or reject the deal?	Base: All Respondents	1038
	17	14	Q12. To what extent do you think that it's likely or unlikely that, after the UK's exit from the EU, a Conservative Government would spend an extra £350m a week on the NHS?	Base: All Respondents	1038
	18	15	Q13. Which of the following is closest to your view?	Base: All Respondents	1038
	19	16	Q14. To what extent do you agree or disagree with the following statement? "The government has put people's jobs, wages and living standards as a top priority in its Brexit negotiations"	Base: All Respondents	1038
	20	17	Q15. To what extent do you agree or disagree with the following statement? "Brexit is distracting the government from addressing other important issues facing the country"	Base: All Respondents	1038
	21	18	Q16. When the UK Government's negotiations over the terms of Britain's exit from the EU are complete, which of the following options would you prefer to decide whether the UK should accept or reject the deal?	Base: All Respondents	1038
